

Functional & Performance Testing Template

Model Performance Test

Date	01 October 2026
Team ID	SWTID-2026-2391
Project Name	Script-Controlled ACL – Restrict Record Access Based on Field Value
Maximum Marks	

Test Scenarios & Results

Test Case ID	Scenario (What to test)	Test Steps (How to test)	Expected Result	Actual Result	Pass/Fail
FT-01	Text / Choice Input Validation (Email, Phone Number, Description, Branch)	Open a new Institution Details record; enter valid text in Email, Phone Number and Description; select ECE, EEE or CSE in Branch	Valid text accepted; Branch accepts only ECE, EEE or CSE	Valid email, phone number and description were accepted. Branch field allowed only ECE, EEE and CSE.	Pass
FT-02	Auto Number Validation (Student Roll Number)	Create several records and check the Student Roll Number	Unique roll number generated automatically for each record	Five records were created and each received a different automatically generated student roll number.	Pass
FT-03	Access Control Operations (READ, CREATE, WRITE, DELETE)	Impersonate EEE User; add bb1, then bb2, bb3, bb4 one by one; open list, click New, edit and delete a record	Each operation is available only after its role is added; admin has full access	Operations became available as bb1, bb2, bb3 and bb4 were added; admin had full access	Pass
FT-04	Authentication & Role Check (instead of API connection)	Impersonate EEE User and the administrator; confirm roles are resolved by the	Impersonation succeeds and ACLs respond according to assigned roles	Impersonation succeeded; ACL results matched the assigned roles	Pass

		ACL engine			
PT-01	List Response Time (Student Records after ACL evaluation)	Use a timer to measure Student Records list load time	Should be under 3 seconds	1.8 seconds	Pass
PT-02	Concurrent Access Test (several role users at once)	Open the Student Records list with different role users at the same time	ACL evaluation should not slow down	Five users accessed the list simultaneously. Records loaded correctly and role-based access remained consistent, with no noticeable delay.	Pass
PT-03	Bulk Record Load Test (ECE, EEE, CSE records)	Create or import multiple records and check list and ACL behaviour	Should work smoothly without errors	100 records across ECE, EEE and CSE were loaded successfully. The list displayed without errors and ACL restrictions were applied correctly.	Pass
