Project Tracker, Velocity & Burndown Chart: (4 Marks)

Sprint	Total Story Points	Duration	Sprint Start Date	Sprint End Date (Planned)	Story Points Completed (as on Planned End Date)	Sprint Release Date (Actual)
Sprint-1	20	3 Days	28 Sep 2026	30 Sep 2026	20	30 Sep 2026

Velocity:

The sprint duration is 6 days and the team velocity is 20 story points per sprint. Average velocity (AV) per iteration unit (story points per day):

$$AV = \frac{\text{sprint velocity}}{\text{sprint duration}} = \frac{20}{6} \approx 3.33 \text{ story points / day}$$

Burndown Chart:

A burn down chart is a graphical representation of work left to do versus time. The chart below shows the 80 story points of this project being completed at a steady 20 points per sprint.
